Order thereon.—

It is observed that on the strength of an

observation made in
the Executive Engineer's
report dated 17th October
1889, to the effect that
no information was
available as to the
past state of the
tank or when and
why it breached, the
First Assistant to
the Resident was
informed in the
D. P. W. Secretary's
letter dated the 6th
August 1892, ~~that~~
~~no information was~~
available as to when
the tank breached.
As the papers read
above do not show
that

that any reference was
made to the Revenue
authorities on the
subject, the Deputy
Commissioner is
now requested to
make such local
enquiry as may be
necessary to ascertain
when the tank actually
breached and since
how long it has
been in its present
state and to submit
his report with such
original accounts
and records as may
be found bearing on
the subject.

Sir, Memo No 824/76 dated the 4/5 September last in re - Byrakapur tank Gorikedavoe Talook.-

In reference to the above has the honor to forward the amildars memo together with the correspondence. The amildar states that he has not been able to find any ancient record on the condition of the tank. Local enquiry shows that the tank breached upwards of 75 years back and has not been repaired ever since.

Memo Enclosure 4

In reference to the Sub Officer's order No 165 dated 7th September 1893 calling for information in English as to when the Baichapura tank breached and for how long that tank has been in its present condition, beg to state that I made all local enquiry possible and perused find no Accounts or other public records bearing on the points

From the statements (Sworn depositions enclosed) of the oldest inhabitants of the place and of the neighbourhood the following information has been obtained

1 Puttanna, aged 95 years, states that when he was 20 years old, five tanks breached during his father's tenure of office as Patail of Baichapur Viz Hudgur big tank, Palyada Devadi Marijamma's tank, Devalakada Narasimhaiya tank, Anjanmankere and Tirupa Sandra tank, and the water of these five tanks having rushed

on

on Baichapur Tank it breached and it was not at all restored. He remembers having seen sugar Cane crop grown under Baichapur Tank. He dates the breach at 75 years back.-

2 Madigar Lattiga and Lakmen Ganga are not aware of the breach, but speak to stories told by their elders corroborating the 1st (70) (60) main statement.

3. Shanbhag's statement is completely useless - He simply assigns reasons for his being unable to furnish any accounts.

4 From enquiries made at Palya it would appear that 80 years back the said five tanks breached in one night and that Palya big tank has been in its present condition ever since as also that of Baichapura.-

D. P. W.

The Deputy Commissioner reports that the Baichapur Tank breached 75 years ago. I would accept the Madras Government's refusal to give us permission to reconstruct it, as the case is not one on which we can go to arbitration with any chance of success. The existing Revenue from the tank should be maintained & any small works required for this purpose should be done.
